RE: Pre-Demolition Survey Report (PDSR) for B887 - Approval

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the PDSR for Building 887, Version 0 dated June 17, 2004, received on July 15, 2004. Based on the information contained in this PDSR, we are hereby approving this PDSR for Building 887.

It is our understanding that the sump immediately adjacent to B887 is part of the sanitary sewer system and is not considered part of B887. It is also our understanding that sediment found in this sump exceeds the soil action levels for uranium and this sump will be completely removed, along with the manhole to the west and connecting pipe.

Although we are approving this PDSR for B887, we previously reviewed the draft PDSR for B887 and agreed that this structure could be demolished, as described in a Contact Record dated July 1, 2004.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
